Contents

Contributed Papers

- Breitling, T., Zierep, J.:** Computation of transonic viscous flow over airfoils with control by an elastic membrane and comparison with control by passive ventilation 23–36
- Chandrasekharaiah, D. S., Keshavan, H. R.:** Thermoelastic plane waves in a transversely isotropic body 11–22
- Gamby, D., Chaoufi, J.:** Asymptotic analysis of wave propagation in a finite viscoplastic bar 163–178
- Kattis, M. A.:** Thermoelastic plane problems with curvilinear boundaries 93–103
- Mulone, G.:** On the stability of plane parallel convective flow 153–162
- Pan, E.:** Dislocation in an infinite poroelastic medium 105–115
- Paul, H. S., Raman, G. V.:** Wave propagation in a hollow pyroelectric circular cylinder of crystal class 6 37–46
- Petrov, V. G.:** Mechano-mathematical model of cardiac fibre length-pressure pulsations 239–250
- Ramanaiah, G., Malarvizhi, G.:** Free convection on a horizontal plate in a saturated porous medium with prescribed heat transfer coefficient 73–80
- Schmitt-v. Schubert, B.:** Sound waves in an elastic tube containing a gas droplet or a liquid-bubble mixture 81–92
- Theocaris, P. S.:** Differences in shear strengths of orthotropic bodies 59–72
- Theocaris, P. S., Panagiotopoulos, P. D.:** On the T - and S -criteria in fracture mechanics: new formulations and variational principles 135–152
- Theocaris, P. S.:** Stress intensities in elastic-plastic plane-stress fields by caustics 219–238
- Vardoulakis, I., Aifantis, E. C.:** A gradient flow theory of plasticity for granular materials 197–217
- Wang, C.-Y., Watson, L. T.:** Large deformations of a whirling elastic cable 47–57

- Watanabe, T.:** Free convection boundary layer flow with uniform suction or injection over a cone 1—9
- Zbib, H. M.:** On the mechanics of large inelastic deformations: non-coaxiality, axial effects in torsion and localization 179—196
- Zhang, S. W., Chen, Y. Z.:** New integral equation in the thin airfoil problem 123—133
